4766

We pioneered the modern crossbow movement over 60 years ago... and have never stopped. Barnett has become the world's #1 producer of crossbows because we scrutinize every aspect of every crossbow. Focusing on precision, safety and performance — we take care of the details so you can take care of business.

TRIGGERTECH ▶ **A \$200 VALUE!**
Precise Trigger Control

The patented TriggerTech ADF (anti-dry fire) trigger allows you to squeeze off shots with a pull of just 3 pounds. Its Frictionless Release Technology™ produces an incredibly responsive touch that generates smooth and repeatable shots every time.

1. **ANTI-DRY FIRE TRIGGER (ADF)**
A spring-loaded safety bar remains in place until the arrow is seated properly to protect the user from shooting the crossbow without an arrow fully loaded.
2. **SOFT-LOK™ FLOATING BRISTLE ARROW RETAINER**
U.S. Patent: 9,395,143
3. **PREMIUM ILLUMINATED SCOPE**
4. **CNC MACHINED PICATINNY SCOPE MOUNT**
5. **CNC MACHINED ALUMINUM FLIGHT TRACK**
6. **FINGER REMINDERS AND PASS-THROUGH FOREGRIP**
7. **CUSTOM COMPOSITE LAMINATED LIMBS**
8. **BUTT PAD**
9. **INTEGRATED CRANK AVAILABLE**
Easily remove the cheek piece and install a compatible crank cocking device.
10. **CARBONLITE RISER**
Barnett's patented carbonlite design removes nearly 43% of weight from the front of the crossbow. This shifts the balance point to the shoulder so you have more control.
11. **CNC MACHINED CAMS**
12. **METAL INJECTION MOLDED TRIGGER**
MIM triggers have the tightest quality tolerance available.
13. **CROSSWIRE® STRING & CABLE SYSTEM**
14. **STEP-THROUGH RISER (STR)**
By integrating the foot stirrup directly into the riser assembly, step-through riser designs lengthen the power stroke without placing the cocking string beyond arm's length.
15. **SIDE MOUNT QUIVER**
16. **HEADHUNTER™ ARROWS**
Custom carbon arrows

BARNETT CROSSBOWS COME MOSTLY ASSEMBLED

Use the provided nose bolt to connect the riser and stock for final assembly. No other bolts needed.

4766

SAFETY FIRST

Safety and ethics are the cornerstones of hunting. Make decisions in the field that not only keep you safe, but also reflect well on the hunting community as a whole.

1 CHECK EQUIPMENT

Inspect all your gear and equipment (crossbow, string, cables, bolts, etc.) prior to each use – ensuring your crossbow is properly assembled and in good condition. Do not use a damaged crossbow or equipment.

2 HAND SAFETY

Never place fingers or thumbs on, in or near the arrow/flight track, the string and/or the cables. Placing fingers or thumbs on, in or near the arrow/flight track, the string and/or the cables may result in serious injury, including finger and/or thumb amputation.

3 TRIGGER SAFETY

Keep your finger off the trigger and the safety engaged until you're ready to shoot. Re-engage the safety if you don't end up shooting.

4 HANDLING YOUR CROSSBOW

Always point your crossbow in a safe direction (i.e. where there is not anything or anyone who might be damaged if the crossbow discharged) at all times – regardless of whether your crossbow is loaded or not.

5 DRY FIRING

Never "dry fire" (i.e., release a cocked crossbow string without a recommended arrow properly loaded into the receiver) your crossbow. Dry firing a Barnett crossbow will immediately void your warranty and result in catastrophic damage to the crossbow. Should your Barnett crossbow dry fire, it must be inspected by a qualified Barnett service representative prior to further use. Failure to follow these instructions may result in serious injury!

6 ARROW SELECTION

Only load properly spined (stiffness), sized (length) and weighted arrows with moon or half-moon nocks into your crossbow. All Barnett crossbows come equipped with compatible arrows; consult your local retailer if you need more.

7 PROPER LOADING

Check to make sure the crossbow is fully cocked and the arrow is properly loaded into your crossbow before firing.

8 PROPER DE-COCKING

The only way to de-cock your crossbow is to shoot it into a safe target. Never attempt to de-cock your crossbow by hand or with a rope cocking device. Attempting to do so puts you at risk of personal injury.

9 WHAT TO WEAR

Always wear quality, close-toed shoes or boots while operating a crossbow. Never operate in flip flops, slippers, sandals or barefoot.

10 BASIC MAINTENANCE

Check the string and cables for any signs of fraying; replace them before further use if you see any frays. To extend the life of your string and cables, apply lube wax to these areas every 5 to 10 shots or if you see any "white fuzz" begin to appear. Failure to follow these instructions may result in a break during use, which may damage your bow or cause injury.

CROSSBOW ACCESSORIES

BARNETT HAS YOUR HUNT COVERED. EVERYTHING YOU NEED
FOR A SUCCESSFUL CROSSBOW EXPERIENCE IS PROVIDED;
FROM QUIVERS TO CRANKS TO CASES. THESE ITEMS ARE
DEVELOPED WITH THE SAME ATTENTION TO DETAIL TO MAKE
SURE YOU NEVER MISS AN OPPORTUNITY TO GET AFTER IT.™

SCOPES AND ARROWS

4 x 32 MULTI-RETICLE SCOPE

This waterproof, shock-resistant scope allows shooters to line up their shots at various yardage quickly and easily.

#17060 | 0 42609 17060 9

PREMIUM RED DOT SIGHT

Simplify your shooting experience with this varying dot intensity sight.

#17054 | 0 42609 17054 8

22" CARBON ARROWS (3-PACK)

Overall Weight: 430 grains
Field Point: 100 grains

- + Designed to maintain down-range energy with speed and accuracy
- + Package serves as case to protect broadheads and fletching
- + Easy to transport in the field
- + Built-in treestand hook hole

Only use arrows with half-moon nocks weighing no less than 400 grains.

#16422 | 0 42609 16422 6

20" CARBON ARROWS (3-PACK)

Overall Weight: 415 grains
Field Point: 100 grains

- + Designed to maintain down-range energy with speed and accuracy
- + Package serves as case to protect broadheads and fletching
- + Easy to transport in the field
- + Built-in treestand hook hole

Only use arrows with half-moon nocks weighing no less than 400 grains.

#16420 | 0 42609 16420 2

THUMP DECELERATOR DE-COCKING ARROW

- + Unique impact breaking system
- + Re-usable design
- + Safety arrow head
- + Fits any quiver

THUMP 1-ARROW DE-COCKING SYSTEM

#17526 | 0 42609 17526 0

EVAC CROSSBOW DEACTIVATION BOLTS

- + De-cocking bolts for a safe and controlled crossbow deactivation
- + 5 bolts included (500 grains each)
- + Glow in the dark for correct fletch and nock track alignment
- + Easily snaps into Barnett lightweight quiver

#17190 | 0 42609 17190 3

EVAC bolt in daylight

EVAC bolt in the dark

CROSSBOW ARROWS

Barnett 18" and Headhunter™ 20" and 22" arrows specifically made for superior performance.

5-PACK 18" BARNETT ALUMINUM ARROWS W/ FIELD POINTS & MOON NOCKS
#16107 | 0 42609 16107 2

5-PACK 20" HEADHUNTER™ ARROWS W/ FIELD POINTS & MOON NOCKS (400 Grain)
#16075 | 0 42609 16075 4

5-PACK 22" HEADHUNTER™ ARROWS W/ FIELD POINTS & MOON NOCKS (400 Grain)
#16079 | 0 42609 16079 2

SIDE MOUNT QUIVER

Our side mount quiver is designed to sit parallel to the flight track so your crossbow bolts are always close at hand. The quiver itself can also be detached from the mounting bracket with one easy click for quick reloading.

#10206 | 0 42609 10206 8

CRANK COCKING DEVICES AND ACCESSORIES

CRANK COCKING DEVICE

Designed to be fully integrated into the crossbow stock for a low-profile, comfortable fit. The handle easily adjusts for right- or left-handed hunters and can be removed after each use. Reduces cocking tension by 17 pounds.

For power stroke over 16"
#17450 | 0 42609 1745 8

For power stroke under 16"
#17455 | 0 42609 17455 3

ROPE COCKING DEVICE

This tool simplifies cocking any crossbow by decreasing the cocking tension by half. Handles allow for a firm hold and the rope may be adjusted to fit both the bow and user. Always use with the hooks facing up.

#17014 | 0 42609 17014 2

TALON™ CROSSBOW SLING

The Talon offers extreme grip – even in less than perfect conditions. Its quick-release feature helps release crossbows quickly and quietly without tools. Designed specifically for use with Barnett crossbows; adjustable from 32 to 40 inches.

#17079 | 0 42609 17079 1

LUBEWAX

Barnett's Lubewax protects and extends the life of your crossbow's strings. Use after every five shots.

#16061 | 0 42609 16061 7

CROSSBOW CASES

WHITETAIL HUNTER® BALLISTIC CASE

#17462 | 0 42609 17462 1

TRUBARK® COMPACT BALLISTIC CASE

#17463 | 0 42609 17463 8

BLACKSPUR® BALLISTIC CASE

#17464 | 0 42609 17464 5

FEATURES

- + EVA CUSTOM FIT
- + FITS ALL CROSSBOWS
